Teacher's Name

#### **FOREWORD**

The Plan-Register combines the teacher's class records and plans in one handy book.

The Plan For Week sections provide ample space for objectives, procedures and references, each of which may be located quickly by numbering as indicated at the top of the page. If the objectives, procedures or references change within the week, the days can be indicated in that special case although it is not usually required. Occasionally a more extensive plan is necessary than is ordinarily desirable in which case carry the work into the next space and draw a new dividing line. After each ten plans, two pages are provided for additional notes to be used at the teacher's discretion.

The Assignments are given space apart from the actual Plan so that they can not be confused.

The Class Register section has extra large spaces for the daily entries making cramped writing unnecessary.

The Register may be easily converted into a genuine forty week record if desired. At the top of the right hand page an arrow indicates a line, which if folded under or cut off, makes twenty additional weeks available without rewriting the students' names.

The Publishers.

# **EXAMPLE**

A student has a classwork average of 78 and receives 90 on a test. Find 78 in the (class work column), first column on the left, and follow the line to the right until in the column headed 90 (Test grade) indicates the average grade of 82.
