

QwikNet Assembly Instructions

10' Net Assembly

Put together net base components as shown in the diagram above. Components are numbered for easy assembly.

NOTE: DO NOT use the four component poles ⑦ or the middle support unit ⑧, for the 10' net. These are used for only the 20' net option.

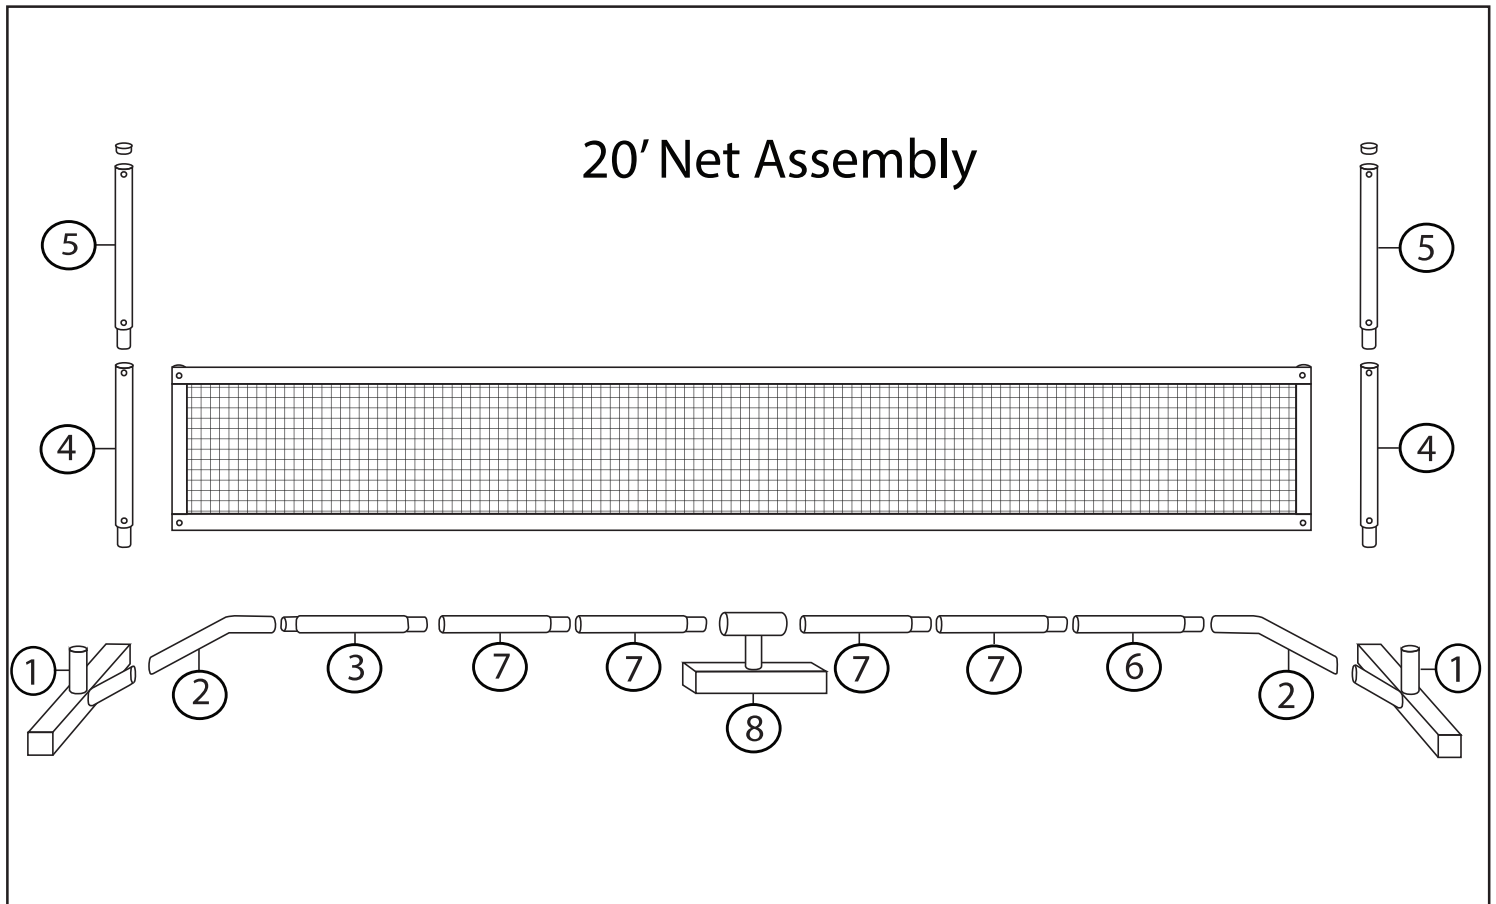

For Badminton Net:

Slide the net sleeves over each pole until the top of the sleeve reaches the top of the pole.

For Tennis Net:

1. Remove the bottom pole ④ on each side of the QwikNet frame.
2. Slide the net sleeves over each pole until the top of the sleeves reach the top of the poles.

QwikNet Assembly Instructions

20' Net Assembly

1. Put together net base components as shown in the diagram above. Components are numbered for easy assembly.
2. Attach all four components poles ⑦ between poles ③ and ⑥.
3. Attach the support unit ⑧ in the middle of the four ⑦ poles, so the support unit stands in the middle of the net.

For Badminton Net:

Slide the net sleeves over each pole until the top of the sleeve reaches the top of the pole.

For Tennis Net:

1. Remove the bottom poles ④ on each side of the QwikNet frame.
2. Slide the net sleeves over each pole until the top of the sleeves reach the top of the poles.
