SCHOOL SMART

Item # 084856 Packing Tape Dispenser

How to load a Packing Tape Dispenser

Step 1: Align the roll of Packing Tape so that it unwinds counter-clockwise over the dispenser reel.

Step 2: Pull front tab of tape roll through the slot between the dispenser roll and shield. Sticky side of tape should face out.

Step 3: Pull tape up and across the tape blade, being careful not to cut yourself on the tape blade.

Step 4: To test dispenser, pull a small amount of tape out and cut tape with the blade.

Step 5: Adjust tensioner dial on dispenser (located in center of tape roll holder) to set a smooth and comfortable unwind.
