

MODEL 3065AVT | LIGHTWEIGHT PERSONAL MULTIMEDIA STEREO HEADSET WITH TO GO™ PLUG

Item Number 1543848

INTRODUCTION

This stereo headset is so light and comfy students might forget they even have it on! Ideal for podcasting, mobile and distance learning, it can also be used for language learning applications, computer labs, gaming with presentation software. The 3065AVT is compatible with iOS, Windows and Android-based smartphones as well as assessments. When used for only listening, the flexible boom mic can be folded up alongside the headband out of the way.

FEATURES

1. Fully adjustable headband fits all students
2. Recessed wiring resists prying fingers
3. Comfortable lightweight ear cushions
4. Permanently attached 6' cord
5. 3.5mm To Go™ plug connects with tablets and smartphones
6. Unidirectional electret mic on flexible gooseneck microphone
