

Classroom Select® Contemporary Cantilever Chair

Chrome Frame

Black Frame

Back of Contemporary Chair

Students can enjoy the best of both flexible and fixed seating styles in one cantilever chair. With a single tubular steel frame bent into two L-shaped legs, this modern shell design allows for upper back and side-to-side flexing that mirror the sitter's natural movements, all while providing proper spine alignment with a stiff (yet comfortable) lower back. Ergonomics aside, shock mounds let the chair smoothly glide forwards or backwards as desired, making this a dynamic seating essential for makerspaces, group activities, and any Grade K to 12 student who craves movement throughout the day.

FEATURES

- Ergonomically designed, one-piece, injection-molded, polypropylene shell with even color and subtle texture
- 15 contoured ribs provide greater flexibility at the upper back while supporting the lower back
- Waterfall seat edge reduces pressure points and promotes better circulation to enhance ergonomic comfort
- Convenient integral handle in the upper back for easy carrying
- Provides side to side flexibility to adjust to a variety of body profiles
- Unique molded indentations on both sides of the chair back preventing shifting or leaning when stacked
- 18"A+ and 20"A+ styles offer a wider, more accommodating seat size
- Optional seat and back pads available on 18"A, 18"A+ and 20"A+ chairs
- Optional field installed book baskets available for 18"A, 18"A+ and 20"A+ chairs
- Easy to clean with soap, water, and an optional diluted bleach solution
- Ships assembled

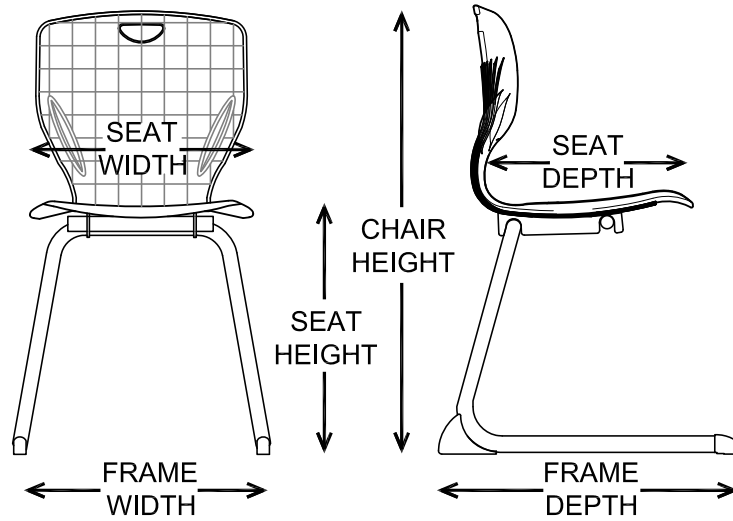

SPECIFICATIONS

CONSTRUCTION

- Frame is molded from 1 1/8", 16-gauge tubular steel and joined by two welded 14-gauge steel support brackets
- Steel tubing runs from front to back of seat with radius corners on the front and rear for ease of sliding on carpet
- Nickel-plated chrome or black powdercoat finishes assure long-lasting durability
- Shell is made of long lasting, durable polypropylene
- Choice of nylon, steel, felt, or rubber glides
