FEATURES

- Flexible seating for any flexible classroom environment
- Easy to pick up and move to create pods of learning or individual student choice seating options
- Medium-density high quality foam adds comfort for students and is durable for long lasting use
- Silicone coating is a non-stick, durable material that is difficult to stain or mark
- Outer layer maintains original look even in high traffic areas
- NeoSit™ seating is easy to clean with most cleaning products including cleaners containing bleach
- There are no sewing seams to trap dirt, germs or contaminants
- Seating is soft and safe for younger students yet durable and firm enough to serve middle and high school students
- Available in 8 vibrant colors for a fun and functional learning environment
- In addition to the core colors offered, we offer blended/customized to match school colors or requirements
- In addition to core shapes, custom shapes and colors are available on special order with longer lead times
- Product can be repaired in the field if a cut or tear is experienced in the surface with a repair kit that can be ordered separately
- Ships assembled

SPECIFICATIONS

CONSTRUCTION

MATERIALS/COATING

Foam – Medium Density Polyurethane foam cut to shape (26046 = 2.6lb/cuft and 46lb IFD)

Coating – Two step Silicone-based coating process (Sealer and Top-Coat)

- Silicone coating is recyclable, water resistant, UV durable, and stable across temperatures -57 to +570 degrees Fahrenheit
- Clean with most cleaning products including cleaners containing bleach and other anti-microbial cleaner elements
