

# Classroom Select® NeoRok® Height Adjustable Stool

A stool that truly rocks, it's no wonder kids love sitting - and twisting - on the dynamic NeoRok® Height Adjustable Stool. Equipped with a sturdy non-tip base (even if the sitter is anything but still), this stool's round seat top (available in 3 comfortable options in rubber, soft, or premium soft plus) gently rocks and tilts in every 360-degree direction to allow squirmy children to freely move their bodies...without ever leaving their seat. Great for students of all abilities, this motion stool is lightweight and easy to move around the room as desired, plus includes a simple-press handle to adjust seat height between 14 to 21.5 inches for optimal leg comfort.

## FEATURES

- Provides gentle movement for a calming effect, making it ideal for individuals with autism, ADD or ADHD
- Enhances focus and attention for fidgety or active individuals at home or in the classroom
- Rounded seat for comfort with your choice of three seat options – rubber seat, soft seat, or premium soft seat plus
- Ergonomic, lightweight and easily transportable for active sitting needs
- Choose from 22 vibrant NeoClass® frame colors
- Easy to clean with soap, water, and an optional diluted bleach solution
- Ships assembled

## SPECIFICATIONS

### CONSTRUCTION

- The easy press handle located under the seat top allows a simple transition between 14½" to 20½" height
- This wobble chair is constructed with two piece sonic-welded polypropylene for stability and durability
- Bottom rubber padding is securely screwed to the stool body
- Stool is made of long lasting, durable polypropylene
