

# AYZRE™, the Hands-Free Door Opener

Germs can be passed from hand to hand on the surfaces everyone touches, like door handles. But the Hands-Free Door Opener makes it easy to open doors or operate latch locks with your elbow or forearm—no need to touch the lever.

- Installs easily with no special tools or drilling
- Includes an explanatory label for the door
- 4 adapter rings included for different lever designs
- Meets fire and life safety guidelines, ADA friendly, code-compliant
- Anti-microbial finish, powder-coated for durability

ITEM #	DESCRIPTION
<a href="#">2051256</a>	Right Hinge, shown above
<a href="#">2051257</a>	Left Hinge
<a href="#">2051255</a>	Set of 2: 1 Right Hinge and 1 Left Hinge
