GAME CHANGING  
LEARNING  
ENVIRONMENTS

Improve learning  
environments.  
Improve outcomes.

Don't just change  
learning environments  
**CHANGE THE GAME.**

Imagine a place where students are actively engaged in their education... flexible enough to support a range of activities and student needs... where technology supports instruction. That's a game changing learning environment.

While quality instruction is the greatest factor in student success, research shows pedagogy and learning space design influence and support each other to produce better student outcomes.
