

MODEL 3068AV | SWITCHABLE STEREO/MONO OVER-EAR HEADPHONE WITH VOLUME CONTROL

Control No. 029009

INTRODUCTION

The 3068 Series delivers performance at an economical price for 1:1 instruction in listening centers and library uses. One advantage of the 3068 is its ability to switch between typical monaural functions (great for English Language Learning/English Language Development, language labs and speech pathology applications) and the stereo mode for use at computers and for music appreciation classes.

FEATURES

1. Comfortable padded headband for extended wear
2. Fully adjustable to fit most sizes
3. Replaceable, foam-filled ear cushion
4. Stereo/Mono switch
5. Rugged polypropylene plastic ear cups resist breakage in high-use situations
6. Volume control
7. Permanently attached cord with reinforced "strain" connection that resists accidental pull out
8. Lengthy 10 foot, coiled cord
9. 1/4" adaptor
10. 3.5mm plug

WARRANTY

Califone's 3 year warranty covers school and business uses.
