

MODEL 1218AV-PY | 8-POSITION MONAURAL JACK BOX

Control No. 060086

INTRODUCTION

The key to listening centers is the jackbox, the distribution point to the headphones. This durable jackbox has a rugged ABS plastic housing and features silver-plated contact points for a solid connection. Individual volume controls are moisture resistant to prevent corrosion. Ideal for use in listening centers, ELD/ELL and special education applications, language labs and literacy groups.

FEATURES

1. Rugged ABS plastic casing for durability and school safety
2. Eight listening positions, each with a 1/4" jack and individual volume control
3. Two pre-drilled holes to permanently affix to a surface
4. Skid-resistant pads at each corner won't damage or scratch surface
5. Silver-plated contacts prevent "crackling" sound heard with other jackboxes when connecting
6. Permanently attached 5 foot cord
7. 3.5mm and 1/4" plugs connect with media players

WARRANTY

Califone's 1 year warranty covers school and business uses.
