

Lateral Files

Features

- Two to five drawer file cabinets
- Available in 3 widths
- Cabinet ships completely assembled and frame is welded together from 20 and 22-gauge cold rolled steel with a thickness from .30 to .36
- Extra deep drawers accommodate letter or legal size when using side to side hanging rails
- Genuine progressive telescoping ball-bearing slides allows maximum drawer extension
- Drawer slides have an automatic interlock which prevents more than one drawer opening at a time, reducing the chance for cabinet tip over
- Center lock securely locks by engaging locking bars on both sides of the drawers for positive security (2 keys provided)
- Drawer sides are double wall reinforced and have a rolled or hemmed edge for strength, rigidity and safety
- Drawers are rated at 113 lbs capacity when weight is evenly distributed
- All steel full width drawer pulls featuring double wall reinforced drawer fronts for extra stability
- Cabinet is equipped with four leveling glides and reinforced base
- Powder coat finish of 2mm is used on all steel parts. It is applied with an electrostatic process and heat cured to provide longevity and appeal
- Meets or exceeds applicable ANSI/BIFMA standards
