1400 Series Combination Desk

Features

Seat:
- Ergonomically designed, one-piece, injection-molded, polypropylene shell with leather grain surface
- Waterfall edge promotes good circulation and relieves pressure points
- Design promotes correct seating posture. V-Back in chair provides ventilation for hips and spinal relief.

Frame:
- Seat is attached to the frame with concealed rivets to prevent clothes from tearing or snagging
- Shell is mounted onto a strong, rigid frame that supports the seat at the proper angle and height
- Legs are constructed from 1 1/8", 16-gauge tubular steel, unswaged to receive glides
- Bracket is constructed from 13-gauge formed steel
- Top support is constructed from 1 1/8", 12-gauge tubular steel
- Nickel-plated chrome or black powdercoat finishes assure long-lasting durability
- Steel writing surface supports and seat supports are welded to the frame

Work Surface:
- Desktops are available in 18” x 24” and 20” x 26” sizes with three surface options
- Work surfaces are sloped 5° for added comfort
- Laminate Top features a 5/8” thick particleboard core with a high-pressure laminate surface, backed with a phenolic backer sheet to minimize warping. Edges are finished with a black, vinyl T-mold.
- Laminate Top is also available with a 5/8” thick MDF core and high-pressure laminate surface, backed with a phenolic backer sheet. Edges are sealed with a polyurethane LockEdge that offers easier cleaning and added durability.
- Hard Plastic Top is formed from 5/8” thick high-impact solid plastic that has been molded into a homogeneous unit by heat and pressure

Book Basket:
- Optional field installed book basket is formed from 18-gauge steel rods
- Available in heavy-duty, nickel-plated chrome or black powdercoat finishes
