

Add one-button lockdown to existing locks.

QUICKBOLT™ Instant Lockdown Lock lets you add the quickest method of deadbolt locking to your doors while keeping your existing cylindrical locks. Easily installed over a cylindrical lever lockset, it provides instant bolting of the door with a press of the red button. QUICKBOLT can be unlocked at any time via any standard or high security rim cylinder.* It maintains single-motion free egress at all times, and also serves as a 100% code-compliant after-hours lock.

- Lock status indicator window turns red when lockdown is activated, easily seen from across a room
- Sturdy construction features thru-bolted steel housing with heavy stainless steel bolt, flame-retardant glass fiber nylon cover
- Metal installation template ensures accurate and fast installations for interfacing with all popular cylindrical locks; adapter to existing lever included
- Approved component in a Fire Door assembly with 1/3-hour rating with Hose Stream

* Not included, available for separate purchase
