

A bleeding artery can be fatal within minutes. In the critical moments before professionals arrive, bystanders who have the right equipment close at hand can make the difference between life and death. That's why School Specialty offers emergency kits for every part of the school campus, all compliant with lifesaving recommendations—for immediate readiness when nothing less will do.

Wherever injuries happen, be equipped to Stop the Bleed.

Emergencies can occur anytime and anywhere. To prepare you for them, School Specialty offers three essential categories of North American Rescue kits: individual Bleeding Control Kits, Public Access Bleeding Control Stations, and Crisis Incident Response Kits.

INDIVIDUAL BLEEDING CONTROL KITS

These individually sized kits are capable of managing a severely injured casualty. Kits come packaged in red nylon bags or in durable, transparent vacuum packed bags. Deploy one in every classroom and office, and issue one to every teacher, coach, department head, and bus driver.

Basic Kit Contents

- 1x Combat Application Tourniquet
- 1x 6" Responder Emergency Trauma Dressing 2x NAR Compressed Gauze
- 2x Pair Bear Claw Nitrile Gloves Lg.
- 1x NAR Trauma Shears, 7.25 in.
- 1x Permanent Marker, Small
- 1x Just in Time Instruction Card

Intermediate Kit Contents

 Everything included in the basic kit plus HyFin Compact, Vent Twin Pack Chest Seals

Advanced Kit Contents

- Everything included in the intermediate kit, substituting 1x Compressed Gauze with Combat Gauze LE, Z-Fold Hemostatic Bandage, which promotes blood clot formation
- Effective for wound locations not amenable to tourniquets such as neck, armpit, and deep groin injuries
