Safety Data Sheet

SDS # : A-1005 T	oner - Black, Cyan, Magenta, Yellow	
ssuing Date 2007-08-22	Revision Date 2015-04-21	Version 3
		Active
1. Product and Company Ic	dentification	
Trade Name Toner	for Phaser 6125, Phaser 6128 MFP, Phase 6140, Phaser 6500, WorkCentre 6505	er 6130, Phaser
106R01286, 106R01331, 106 106R01338, 106R01452, 106 106R01459, 106R01477, 106 106R01484, 106R01591, 106 106R01598, 106R01599, 106	1279, 106R01280, 106R01281, 106R01282, 106R01283 R01332, 106R01333, 106R01334, 106R01335, 106R013 R01453, 106R01454, 106R01455, 106R01456, 106R014 R01478, 106R01479, 106R01480, 106R01481, 106R014 R01592, 106R01593, 106R01594, 106R01595, 106R015 R01600, 106R01601, 106R01602, 106R01603, 106R016 K01537, 093K01620, 093K01621, 093K01623, 093K016	336, 106R01337, 457, 106R01458, 482, 106R01483, 596, 106R01597, 504, 093K01534,
Color Pure substance/preparation	Black, Cyan , Magenta, Yellow Preparation	
dentified uses	Xerographic printing	
lanufactured by	Xerox Corporation Rochester, NY 14644	
Emergency telephone	Safety Information US: (800) 275-9376 Chemical Emergency only (Chemtrec) (800) 424-9300	
2. Hazards Identification		

Emergency Overview

The product contains no substances which, in the form utilized and at their given concentrations, are considered to be hazardous to health.

Color	Appearance	Physical state	Odor
Black, Cyan, Magenta, Yellow	Powder	Solid	Faint

Classification of the substance or mixture

Customer use / Cartridges and sealed bottles

BR547

SDS # : A-1005	Toner - Black, Cyan, Magenta, Yellow Page 278	
OSHA Hazard Classification	This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.	
	While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.	
Label elements		
Signal Word	None	
Hazard Statements	None required	
Precautionary Statements	None required	
Potential Health Effects		
Principle Routes of Exposure Acute toxicity	Inhalation	
Eyes	No known effect	
Skin	No known effect	
Inhalation	No known effect	
Ingestion Chronic effects	No known effect	
Main symptoms	Overexposure may cause:	
	mild respiratory irritation similar to nuisance dust.	
Aggravated medical conditions		
Environmental hazard	The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.	

3. Composition/Information on Ingredients

Product Description

This formulation represents multiple colors and the component list includes multiple pigments. The actual toner formulation for each color will differ only in the pigment used.

Chemical Name	CAS-No	Weight %
Polymer	292629-36-8	70-80
Paraffin wax	8002-74-2	1-10
Carbon Black	1333-86-4	0-10
Yellow Pigment	6358-31-2	0-10
Amorphous silica	7631-86-9	<10
Cyan pigment	147-14-8	0-10
Magenta Pigment	980-26-7	0-10
Titanium dioxide	13463-67-7	0-1

4. First Aid Measures

General advice

For external use only. When symptoms persist or in all cases of doubt seek medical advice. Show this material safety data sheet to the doctor in attendance.

SDS #: A-1005	Toner - Black, Cyan, Magenta, YellowPage 3/8	
Eye contact	Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes	
Skin contact	Wash skin with soap and water	
Inhalation	Move to fresh air	
Ingestion	Rinse mouth with water and afterwards drink plenty of water or milk	
Notes to physician	Treat symptomatically	
Protection of first-aiders	No special protective equipment required	
5. Fire-Fighting Measure	S	
Flammable properties	Not flammable. Will not readily ignite	
Flash point	Not applicable	
Suitable extinguishing media	Use water spray or fog; do not use straight streams, Foam	
Unsuitable extinguishing media	Do not use a solid water stream as it may scatter and spread fire	
Specific hazards arising fror	n the chemical	
Hazardous combustion product	ts Hazardous decomposition products due to incomplete combustion Carbon oxides Nitrogen oxides (NOx)	
Explosion Data Sensitivity to Mechanical Im Sensitivity to Static Dischar		

Protective Equipment and Precautions for Firefighters

In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins.

6. Accidental Release Measures		
Personal Precautions	Avoid breathing dust	
Environmental Precautions	No special environmental precautions required	
Methods for containment	Prevent dust cloud	
Methods for cleaning up	Prevent dust cloud. Sweep up or vacuum up spillage and collect in suitable container for disposal. Use non-sparking tools and equipment.	
Other Information	The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.	
7. Handling and Storage		

SDS # : A-1005	Toner - Black, Cyan, Magenta, Yellow	Page 4/8
Advice on safe handling	Handle in accordance with good industrial hygiene and safety practice Avoid dust accumulation in enclosed space Prevent dust cloud	
Technical measures/Storage conditions	Keep container tightly closed in a dry and well-ventilated place Store at room temperature	
Hygiene measures	None under normal use condtions	
8. Exposure Controls/Personal Protection		

Exposure guidelines

Product information

ACGIH TLV TWA	10 mg/m ³ (inhalable particles)
ACGIH TLV TWA	3 mg/m ³ (respirable dust)
OSHA PEL TWA	15 mg/m ³ (total dust)
OSHA PEL TWA	5 mg/m ³ (respirable dust)
Xerox Exposure Limit	2.5 mg/m ³ (total dust)
Xerox Exposure Limit	0.4 mg/m ³ (respirable dust)
di an Infanna di an	

Other Information

The results obtained from a Xerox sponsored Chronic Toner Inhalation Study demonstrated no lung changes in rats for the lowest (1 mg/m³) exposure level (the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of animals at the middle (4mg/m³) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m³) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with an EPA testing protocol.

Occupational Exposure Controls

Engineering measures None under normal use conditions

Personal Protective Equipment

Customer use / Cartridges and sealed bottles

Respiratory protection	No special protective equipment required
Eye/Face protection	No special protective equipment required
Skin and body protection	No special protective equipment required
Hand protection	No special protective equipment required

9. Physical and Chemical Properties

Appearance Odor threshold	Powder Not applicable	Odor Physical state	Faint Solid
рН	Not applicable	Color	Black, Cyan, Magenta, Yellow
Flash point	Not applicable	Boiling	Not applicable
Softening point	49 - 60 °C / 120 - 140 °F	point/range Autoignition temperature	Not applicable

Toner - Black, Cyan, Magenta, Yellow

Page	5	Ι	8
------	---	---	---

Flammability Limits in Air	Not applicable	
Explosive properties Vapor pressure Vapor density Water solubility Viscosity Partition coefficient Evaporation rate Melting point/range Freezing point Decomposition temperature Specific gravity	Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Not applicable Not applicable Not applicable Not applicable Not applicable Not applicable Not determined Not determined Not determined ~ 1	
10. Stability and Reactivity		
Reactivity	No dangerous reaction known under conditions of normal use	
Stability	Stable under normal conditions	
Incompatible products	None	
Conditions to Avoid	Prevent dust cloud Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard	
Hazardous Decomposition Product	s None under normal use	
Hazardous polymerization	Hazardous polymerization does not occur	
Hazardous reactions	None under normal processing	
11. Toxicological Information The toxicity data noted below is based on the test results of similar reprographic materials.		
Acute toxicity Product information Irritation LD50 Oral LD50 Dermal	No skin irritation, No eye irritation > 5 g/kg (rat) > 5 g/kg (rabbit)	

LC50 Inhalation:	> 5 mg/L (rat, 4 hr
Eyes	No known effect
Skin	No known effect
Inhalation	No known effect
Ingestion	No known effect

Chronic toxicity

Product information			
Chronic effects	No known	effects under normal use conditions	
Main symptoms	Overexpo	sure may cause: mild respiratory irritation	on similar to nuisance dust.
Aggravated medical conditions	None under normal use conditions		
Carcinogenicity	See "Other Information" in this section.		
Chemical Name		IARC	NTP

SDS #: A-1005 Ton

Toner - Black, Cyan, Magenta, Yellow

Page 6/8

Carbon Black	2B	
Titanium dioxide	2B	

Other information

The IARC (International Agency for Research on Cancer) has listed carbon black as "possibly carcinogenic to humans". The classification is based on studies evaluating pure, "free" carbon black. In contrast, toner is a formulation composed of specially prepared polymer and a small amount of carbon black (or other pigment). In the process of making toner, the small amount of carbon black becomes encapsulated within a matrix. Xerox has performed extensive testing of toner, including a chronic bioassay (test for potential carcinogenicity). Exposure to toner did not produce evidence of cancer in exposed animals. The results were submitted to regulatory agencies and published extensively.

The IARC (International Agency for Research on Cancer) has listed titanium dioxide as "possibly carcinogenic to humans". The classification is based on studies in rats using pure, unbound TiO2. Based on the review of available study results, when this product is used as intended, Xerox has concluded that the presence of titanium dioxide in this mixture does not present an increased risk of lung cancer or chronic respiratory disease.

Other toxic effects	
Product information	
Sensitization	No sensitization responses were observed
Mutagenic effects	Not mutagenic in AMES Test
Target organ effects	None known
Other adverse effects	None known
Aspiration Hazard	Not applicable

12. Ecological Information

Ecotoxicity

The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.

13. Disposal Considerations		
Waste Disposal Methods	This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.	
Contaminated packaging	Dispose of in accordance with local regulations.	
14. Transport Information		
Note	This material is not subject to regulation as a hazardous material for shipping.	

15. Regulatory Information

OSHA Regulatory Status

This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

International Inventories

TSCA	Complies
DSL/NDSL	Complies

U.S. Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372. **Clean Water Act**

This product is not regulated as a pollutant pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product is not regulated as a hazardous air pollutant (HAPS) under Section 112 of the Clean Air Act Amendments of 1990. CERCLA

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

TSCA

TSCA 12(b) does not apply to this product.

U.S. State Regulations

California Proposition 65

Carbon black is regulated under California Proposition 65 only if in the form of "airborne, unbound particles of respirable size". Toner products do not contain carbon black in the form of "airborne, unbound particles of respirable size". Therefore, the requirements of Proposition 65 do not apply to this product.

Titanium dioxide is regulated under California Proposition 65 only if a product results in exposure in the form of "airborne, unbound particles of respirable size". Toner products do not result in exposure to titanium dioxide in the form of "airborne, unbound particles of respirable size". Therefore, the requirements of Proposition 65 do not apply to this product.

Chemical Name	CAS-No	California Prop. 65
Carbon Black	1333-86-4	Carcinogen
Titanium dioxide	13463-67-7	Carcinogen

U.S. State Right-to-Know Regulations

Although this product contains substances included in some U.S. State Right-to-Know regulations, the particles are bound in a unique matrix and, therefore, the product does not pose any specific hazard.

Canada

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR.
