

MegaAbility Beads

Written by Cecilia Cruse, MS, OTR/L

Introduction

Wow! Finally a set of beads that all kids can string. The Abilitations MegaAbility Beads features 6 foam beads that range in size and diameter, and a soft nylon string that finally makes bead stringing a success for most any child's ability level. The bright bead colors with the dark nylon rope make for good visual contrast and appeal. Perfect for young children, children with cerebral palsy, ataxia, traumatic brain injury or other neurological conditions, the Abilitations MegaAbility Beads are great for encouraging fine motor, crossing midline and bilateral motor coordination skills. String your way to success with the MegaAbility Beads!

Product Use

Here are a few suggestions for the MegaAbility Beads:

- MegaAbility Beads are great for learning to follow directions and/or sequence. Ask the child to "put the large yellow bead on next" or "String a red, then blue, then green bead."
- Use several sets of the MegaAbility Beads. Have the children string the beads on each rope. Ropes can then be tied together to make a group project, or use to hold on to during transitions.
- Use several sets of the MegaAbility Beads. Place all foam blocks on the floor or table, then have the child sort and string the beads according to size, shape or color discrimination.
- Use several sets of MegaAbility Beads. Have the child string the beads, then suspend the rope to allow for pushing, grabbing, or crashing into during scooter board activities or when playing on suspended equipment.

Modifications

Most children should be able to handle the larger size foam bead's larger sizes and inner diameters to string successfully. For some children, you may have to hold the string and let them guide the foam bead onto the string with one or two hands.

Care & Safety

The MegaAbility Beads are made of foam and range in size from 2" x 2" (5 x 5cm) to 5" x 2.75" (13 x 7cm) with hole diameters from .75" to 1.5" (2-4cm). **FOAM BEADS CONTAIN LATEX.** The nylon rope measures 75" (191cm) and features sturdy rubber-tip handle and stopper bead. The set includes 6 beads and 1 rope. Foam beads and rope can be surface wiped with a damp cloth or germicidal wipe. Recommended for children ages 3 and up.
