

## Owl About March

Aligns with Learning Standards

### ★ Featured Display

Months and seasons and weather, oh my! This OWL-standing calendar set puts it all into perspective.

For this display, our focus is on March:

- Display the pieces in the set as shown.
- Create a display pocket that holds questions about March.
- Draw (or have a student draw) a question card from the pocket each day, asking your students for the answer.
- Ask questions like, "What's the first day of spring?" and "On what day of the year does March 2013 start?"

Feature a similar display for each month. Add cards with questions about the seasons or the weather to enhance learning fun.
