

Under the Sea Days

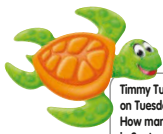

Olga Octopus is taking a trip on September 25. Today's date is September 12. How many days does she have to pack?

Daisy Dolphin has camp from September 8 through September 12. How many days will she be at camp?

Timmy Turtle has swim lessons on Tuesdays and Thursdays. How many lessons will he have in September?

Aligns with Learning Standards

★ Featured Display

Learning Objectives: Develop an understanding of the calendar and how to use it for scheduling. Build critical-thinking skills.

Dive into calendar time! Children hone calendar, math, and listening skills while helping the Sea Buddies™ keep track of their days.

- Display the bulletin board set as shown above.
- Create word problems based on the calendar. Write the question on the front and answer on the back of blank flash cards. Examples of questions you could ask are:
 - Olga Octopus is taking a trip on September 25. Today's date is September 12. How many days does she have to pack?
 - Daisy Dolphin has camp from September 8 through September 12. How many days will she be at camp?
 - Timmy Turtle has swim lessons on Tuesdays and Thursdays. How many lessons will he have in September?
- Attach a Mini Accent on the back of each question card. Use the blank sign to hold the cards, fastening it to the display on three sides. Write "Fish Tank" on the front of the sign with Red STICK-EZE® Letters.

- Each day, a student picks a card from the tank, reading the question and asking the class for the answer.

Celebrate every correct answer by posting the question card, along with an accent, for all to see!

Extend the Learning by naming the season and exploring different kinds of weather.
